

# Location Finder

**M6toll**  
A better way around

Marker posts are located on the M6toll hardshoulder at 100 meter intervals.

Please use the marker posts to inform our Control Room of your location.

See overleaf for guidance on this...

# Location Finder

When contacting the Control Room, read the information exactly as described on the marker post to the operative.

For the example provided (right), read **39 over 1**.

Marker posts also point to the nearest emergency telephone.

If you are already in contact with our Control Room, our operative will pass your location to Highways England.
